CREATE FASHION BRAND

Group of factories in Portugal for textile

PRESENTATION

CREATE FASHION BRAND

A Portuguese textile company producing for fashion forward brands since 1989.

We are a high-quality clothing manufacturer based in Portugal with a completely vertical process of creation.

We research fabrics, do fabric cutting, manufacturing, printing/embroidery and packing!

WE PRODUCE

Shirts, t-shirts, sweatshirts, pants, chinos, denims, jackets and other outwear styles. (We work with 100% Cotton and Mixtures, light-weight and heavy-weight. We also work with jersey, jersey/lycra, piquet, fleece, mixtures with lurex as well as woven fabrics.

WE MANUFACTURE

Products with all types of garment wash and garment dye and work with all types of printing/embroidery.

We want to be your factory in Portugal and help you develop the concept behind your brand.

Get to know us better on our website www.createfashionbrand.com

Lets work together.

We hope to hear from you soon!

F.A.Q

WHAT INFORMATION WE NEED YOU TO PROVIDE AS A COMPANY/BRAND?

You need to provide us with your company name, billing address, delivery address (if different) and your VAT number (Or similar number if you're outside Europe - Ex: ABN for Australia or EIN for United States).

If your company does not have a VAT number, we are not able to accept your project nor provide a quote.

HOW FAST CAN YOU DEVELOP SAMPLES/PRODUCTION?

Depending on our production schedule and the model (also if we use the fabrics in stock), we can normally develop the sample in 4-6 weeks. For production we normally have a delivery time of 8-10 weeks after receiving the final order and payment confirmation of the exact order. These deadlines are pending confirmation depending on project complexity. We make a maximum of 2 samples for new costumers (one per model - 2 models max). If you prefer only a fitting sample, without customizations, we can make it but we won't make a custom counter-sample in this case. All customizations required that are not ordered on the sample stage will be applied in production directly without a sample for confirmation at your own risk.

CAN YOU SUPPLY ANY FABRICS?

Yes, we work in a fully factored basis.

HOW DO YOU HANDLE SHIPPING?

Our company is not responsible for shippings. We can arrange shippings under our account if you don't have means to arrange this (to which we will charge you), but we do not take any responsibility for damages, losses, charges of custom fees that can occur. CFB sells FOB, which means that our responsibility as a manufacturer over your product ends by the time the product leaves our facilities.

All productions are shipped in one single drop for an address in the same country as your brand/company is registered. **We do not make dropship.**

Shippings costs are provided once the parcel being shipped is packed and we have the information regarding volume/weight of the shipping. Any issues with shipping must be handled directly between the consignee and the transport company.

WHAT ARE YOUR MINIMUM QUANTITIES?

150 per style/color depending on the fabrics applied in each model since each fabric may require minimum to order. Some specific fabrics are custom-made and can range from 300 pieces per color to 1000 or higher.

WHERE ARE YOUR FACTORIES LOCATED?

We are located in Barqueiros, 30 minutes from Porto airport.

ARE YOU AN AGENT OR A FACTORY?

We're actually a group of 3 Factories:

One is an expert in making woven fabrics: jeans, chinos, jackets, shirts, blouses, etc; The second one is a specialist in knitted fabrics: t-shirts, sweatshirts, hoodie, etc; And the third one is a specialist in jackets and technical garments. We develop the prototypes and patterns inside and if necessary the counter-sample.

The productions are made in our partner factories and are controlled by us. We can produce men and women knitted (jerseys and fleeces) and woven fabrics.

WHAT'S YOUR EXPERIENCE SO FAR?

We work with very recognized brands on the market, mainly luxury brands and also clothes of protection that require several non patentable licenses to produce these special garments.

CAN YOU SEND US FABRICS TO HELP US CHOOSE A MATERIAL?

We can send fabric swatches if you provide the composition, structure and weight you are looking for. We can also provide guidance and suggest fabrics that could fit your project/budget. If you are not able to provide the information, you can send a fabric sample to us so we can source something similar.

F.A.Q

CAN I SCHEDULE A MEETING/VISIT?

Visits can be scheduled after your project is quoted and approved by CFB upon scheduled availability. The client process must be open and the visit should be scheduled 30 days in advance minimum.

Online meetings can be scheduled after the project is quoted and accepted. The meeting should be scheduled at least 5 working days in advance.

HOW DO YOU USUALLY OPERATE WITH YOUR CLIENTS (PROCESS/INFORMATIONS YOU NEED/SOURCING ETC)?

We have a totally vertical process of creation, from the fabric sourcing, fitting, patterns, prototypes, printing/embroidery to the final production and packing. From you, as a brand, we need either full tech packs for each model or physical samples for fitting/fabric reference.

WHAT IS YOUR PRODUCTION CAPACITY PER DAY?

For Denim jeans and Chinos we produce approximately 350 units per day; For shirts it's 300 units; Jackets it's 250 units; Hoodies it's 400 units and t-shirts it's 500 units.

WHAT ARE YOUR CERTIFICATES?

We are GOTS certified, Oeko-tex 100 certified and ISO 9001.

ARTICLES THAT WE PRODUCE

KNIT

- T-shirts
- Henley
- Sweatshirts
- Hoodie
- Pants
- Coats
- Polo
- Cardigan

WOVEN

- Pants
- Chinos
- Jeans
- Biker Jacket
- Suits
- Dress
- Denim Pants and Jackets
- Blazer

HOW WE WORK

1. To create your styles, we need a technical pack with all the measurements, sewing details, fabric composition and color reference. We do not work with fabrics provided by the costumer. We do not make CMT projects. All fabrics must be sourced and controlled by CFB.
2. If you are not able to provide full tech packs, we can do it another way:
 - send us a piece of clothing and we can copy the measurements to make your model.
 - 2.1. If you do not have references of the fabric you want to use, it is important to send a piece of clothing or a sample of fabric to use as reference, so we can find you a similar fabric.

PRICES: WE CANNOT PROVIDE PRICES WITHOUT THE INFORMATION REQUIRED ABOVE. IF YOU DO PROVIDE THE INFORMATION REQUESTED, WE CAN PROVIDE AN ESTIMATED PRICE PER UNIT. THE FINAL PRICE WILL ONLY BE PROVIDED AFTER A SAMPLE IS DONE AND THE PRODUCTION QUANTITY IS CONFIRMED.

NOW, WE ALSO HAVE PRIVATE-LABEL ARTICLES!

This means that we have items already developed and ready for production. You just need to select the fitting, fabric and customizations you want. These garments are not in stock. They are already developed and ready for production by order of the costumer.

These models are more practical because you just need to choose from pre-selected fittings, fabrics and colors and the MOQ is lower than developing your own models. Our MOQ for this service is 100 units per model and per color, including 4 sizes. We have a minimum of 15 units per size when you select your quantities per size.
