CREATE FASHION BRAND

Group of factories in Portugal for textile

PRESENTATION

CREATE FASHION BRAND

We are a Portuguese textile company producing for fashion forward brands, since 1989.

We are a high-quality clothing manufacturer based in Portugal with a completely vertical process of creation.

We research fabrics, do fabric cutting, manufacturing, printing/embroidery and packing!

WHAT WE PRODUCE...

Shirts, t-shirts, sweatshirts, pants, chinos, denims, jackets and other outwear styles. (We work with 100% Cotton and Mixtures, light-weight and heavy-weight. We also work with jersey, jersey/lycra, piquet, fleece, mixtures with lurex as well as woven fabrics.

WHAT WE MANUFACTURE...

We manufacture products with all types of garment wash, garment dye. We also work with all types of printing techniques and embroidery.

We want to help you develop the concept behind your brand, by being your textile factory located in Portugal.

Get to know us better on our website www.createfashionbrand.com

Lets work together.

We hope to hear from you soon!

F.A.Q

WHAT INFORMATION WE NEED FROM YOU AS A COMPANY/BRAND?

You need to provide us with your company name, billing address, delivery address (if different) and your VAT number (Or similar number if you're outside Europe - Ex: ABN for Australia or EIN for United States).

If your company does not have a VAT number (or others stated above), we are unable to accept your project nor provide a quote.

HOW FAST CAN YOU DEVELOP SAMPLES/PRODUCTION?

Depending on our production schedule and the model (also if we use the fabrics in stock), we can normally develop the sample in 4-6 weeks. For production we normally have a delivery time of 8-10 weeks after receiving the final order and payment confirmation of the exact order. These deadlines are pending confirmation depending on project complexity. All samples have a development cost, that will be confirmed once your specs are shared with our team. All customizations required that are not ordered on the sample stage will be applied in production directly without a sample for confirmation under clients responsibility.

Alternatively, if you would prefer to view a fitting sample (without customizations) from our existing models you can purchase a fitting sample under our private label section on our website.

CAN YOU SOURCE ANY TYPE OF FABRIC?

Yes, since we work on a fully factored basis we have a vertical process of production from sourcing fabrics until the packing stage before they leave our facility.

HOW DO YOU HANDLE SHIPPING?

Our company is not responsible for shipping. We can arrange shipping under our account if you don't have the means to arrange this (for this you will be charged). We do not assume any responsibility for damages, loss and custom charge fees that may occur. CFB sells FOB, this means that as a manufacturer we are no longer responsible for your product once your product leaves our facilities.

Productions are all shipped in one single drop for an address in the same country as to where your brand/company is registered. **We do not make dropship.**

Shippings costs are provided once the parcel being shipped is packed and we have the information regarding volume/weight of the shipping. Any issues with shipping must be handled directly between the consignee and the transport company.

All shipping does not include insurance unless required otherwise. Insurance costs are 5% of the Invoice value. All shipments after leaving our facilities are governed by the UPS/DPD/FedEx Terms and Conditions of Transport. In the event of loss of uninsured merchandise, compensation corresponds to that established in the CMR or the Warsaw Agreement. The customer must always inform the shipping address when the order is placed and payment is confirmed. If CFB does not have this information in a timely manner, we will send it to the billing address. It is the customer's responsibility to provide the shipping address and any changes thereto as carriers do not accept changes after the cargo has been collected.

F.A.Q

WHAT ARE YOUR MINIMUM QUANTITIES?

150 per style/colour depending on the fabric applied in each model as each fabric may require minimum to order. Some specific fabrics are custom-made and can range from 300 pieces per color to 1000 or higher.

WHERE ARE YOUR FACTORIES LOCATED?

We are located in Barqueiros, 30 minutes from Porto airport.

ARE YOU AN AGENT OR A FACTORY?

We're actually a group of 3 Factories specialising in different areas:

One expertises in making woven fabrics: jeans, chinos, jackets, shirts, blouses, etc; The second one specialises in knitted fabrics: t-shirts, sweatshirts, hoodie, etc; And the third one specialises in jackets and technical garments. We develop the prototypes and patterns inside and if necessary the counter-sample. We can produce men and women knitted (jerseys and fleeces) and woven fabrics. Productions are made in our partner factories and are completely controlled by us.

WHAT'S YOUR EXPERIENCE SO FAR?

We work with well-known brands on the market, mainly luxury brands and also produce special clothing such as, protective garments where in order to produce these several non-patented licenses are required.

CAN YOU SEND US FABRICS TO HELP US CHOOSE A MATERIAL?

We can send fabric swatches if you provide the composition, structure and weight that you are looking for. We can also provide guidance and suggest fabrics that could fit well with your project/budget. If you are unable to provide the information, you can send us a fabric sample where we can source something similar.

CAN I SCHEDULE A MEETING/VISIT?

Visits can be scheduled after your project is quoted and approved by CFB pending schedule availability. The client process must be opened prior to the meeting and the visit should be scheduled with a minimum of 15 days in advance.

Online meetings can be done, following the same requirements and should be scheduled at least 5 working days in advance.

The Client process opening has a cost of **200€** and includes all the consulting/follow up as well as sourcing services from our production team. **The client process opening is required to schedule in-person or online meetings.**

HOW DO YOU USUALLY OPERATE WITH YOUR CLIENTS (PROCESS/INFORMATIONS YOU NEED/SOURCING ETC)?

We have a total vertical process of creation, from fabric sourcing, fitting, patterns, prototypes, printing/embroidery up to the final stages of production and packing. From you as a brand, we need either full technical packs for each model or physical samples for fitting/fabric reference.

F.A.Q

WHAT IS YOUR PRODUCTION CAPACITY PER DAY?

For Denim jeans and chinos we produce approximately 350 units per day. For shirts around 300 units. Jackets around 250 units; Hoodies around 400 units and t-shirts around 500 units.

WHAT ARE YOUR CERTIFICATES?

We are GOTS certified, Oeko-tex 100 certified and ISO 9001.

KNIT

- T-shirts
- Henley
- Sweatshirts
- Hoodie
- Pants
- Coats
- Polo
- Cardigan

WOVEN

- Pants
- Chinos
- Jeans
- Biker Jacket
- Suits
- Dress
- Denim Pants and Jackets
- Blazer

HOW WE WORK

1. To create your styles, we need a technical pack with all measurements, sewing details, fabric composition and colour references. We do not work with fabrics provided by the customer. We do not make CMT projects. All fabrics must be sourced and controlled by CFB.
2. If you are not able to provide full tech packs, we can do it another way:
 - send us a piece of clothing and we can copy the measurements to make your model.
 - 2.1. If you do not have references of the fabric you want to use, it is important you send us a piece of clothing or a sample of fabric to use as a reference, so we can find you a similar fabric.

IMPORTANT NOTE: ALL TECH PACKS THAT ARE NOT 100% CLEAR WILL BE SUBJECTED TO INTERPRETATION BY OUR TEAM AT THE CLIENTS RISK. CFB IS NOT OBLIGED TO INQUIRE ANY MISSING INFORMATION TO DEVELOP THE CLIENTS PRODUCT. IT'S THE CLIENTS RESPONSIBILITY TO PROVIDE A COMPLETE AND CLEAR TECH PACK.

PRICES: WE CANNOT PROVIDE PRICES WITHOUT THE INFORMATION REQUIRED ABOVE. IF YOU DO PROVIDE THE INFORMATION REQUESTED, WE CAN PROVIDE AN ESTIMATED PRICE PER UNIT. THE FINAL PRICE WILL ONLY BE PROVIDED AFTER A SAMPLE IS COMPLETED AND PRODUCTION QUANTITY IS CONFIRMED.

NOW, WE ALSO HAVE PRIVATE-LABEL BLANKS!

This means that we have items already developed and ready for production. You just need to select the fitting, fabric and customizations you want. These garments are not in stock. They are already developed and ready for production by order of the costumer.

These models are more practical because you just need to choose from pre-selected fittings, fabrics and colors and the MOQ is lower than developing your own models. Our MOQ for this service is 100 units per model and per color, including 4 sizes. We have a minimum of 15 units per size when you select your quantities per size.

Private label items are limited to 2 customizations with a maximum of 20cm each (print or embroidery). Above this, we'll consider the model as a regular development, starting with the MOQ of 150 units per model/color.

CONDITIONS

All reference samples, fabrics and accessories provided by the customer are kept in storage for a period of 2 months after the end of the project where the customer does not ask for their return or in case of cancellation/stop of the development of a project. If the customer wants the extension of storage, they must make the request by email for reservation and consultation of fees.

In all applicable cases where there is no request for an extension, the same samples will be destroyed for recycling without prior notice to the customer.

The samples sent by customers are their responsibility and it is up to the customer to manage the time as well as any request for extension or return, taking into account the deadlines informed.

All samples that are received by the customer without feedback to CFB towards continuation of the development of the projects within the course of 15 business days, will have the projects canceled, the information deleted and will not be considered for future changes or developments.

CFB reserves the right to update and change these conditions whenever we have the need to update our terms.

The continuation of the negotiations towards a new project without returning the conditions document properly signed, indicates that the consumer agrees with the company conditions.
